# Top CCIM Commercial Apps

- [10BII Calc Financial Calculator](#) (\$5.99) – “If the iPad saves you from having to pull your laptop out, this app saves you from having to carry your 10BII calculator,” says Jonathan Epstein, CCIM, of Berger-Epstein Associates. in Allentown, Pa.
- [Dropbox](#) (free) – Debi Carter, CCIM, vice president of Hudson Peters Commercial in Dallas, uses the Dropbox app to access property fliers, video, and pictures on the go. She shares files by saving them to a public Dropbox folder and sending the links to clients and colleagues.
- [LogMeIn Ignition](#) (\$29.99) – Remotely access work files and programs via an iPad with LogMeIn. Users can also remotely log in to their desktop to view Flash Websites, which the iPad doesn’t support. The GoToMyPC and Remoter apps offer similar features.
- [TheAnalyst](#) (\$9.99) – Developed by Blyncc, a tech company co-founded by Todd Kuhlmann, CCIM, this app includes lease vs. own analysis and investment analysis tools, financial calculators, and an environmental risk summary report generator.
- [Springpad](#) (free) – This app organizes notes, images, and places that users want to remember and syncs them on an iPad, iPhone, or computer. Springpad also can retrieve product information from a barcode scan and includes location-based features like business searches.
- [Air Sharing HD](#) (\$9.99) – The iPad has built-in support for printing to any of HP’s 28 AirPrint printers. Printing to a non-AirPrint printer is possible with Air Sharing HD. It has to be networked with a Mac OS X or Linux computer – it’s not compatible with Windows. [PrintCentral for iPad](#) (\$8.99) is an alternative to Air Sharing HD
- [Google Earth](#) (free) – Commercial real estate pros can use Google Earth to show clients aerial property images. Geo-located Wikipedia articles and user-submitted photos provide additional location information.
- [GoodReader](#) (\$4.99) – “GoodReader is an excellent app for storing and opening almost any file,” says Joseph W. Edge, CCIM, president of Sherman & Hemstreet Real Estate in Augusta, Ga. The app works with Microsoft Office, iWork, audio, and video files. It also can be used to view and annotate PDF files. [Office<sup>2</sup> HD](#) (\$7.99) and [Documents To Go Premium](#) (\$16.99) have similar features, and [iAnnotate PDF](#) (\$9.99) and [SignMyPad](#) (\$3.99) include a set of PDF tools.
- [Penultimate](#) (\$1.99) – With “photorealistic” paper designs and a selection of ink colors, Penultimate positions itself as the stylish alternative to other note taking apps. Notes and sketches are organized into notebooks and can be shared as PDFs. For free alternatives, try [Evernote](#) or [Springpad](#).
- [CamCard](#) (\$6.99) – Networking pays dividends in commercial real estate, and the business card is the currency of in-person networking. CamCard digitizes and organizes those cards and also has features for adding supplemental information. Contact information can be exported to Excel, which makes it easy to import new contacts to Outlook and other e-mail programs.

How to work real estate Have and  
Want **exclusive information that  
generate leads** just like real estate  
board listings do.

This provides extra opportunities for  
you to make money that you do not  
have now.

# How to work \$\$\$“*exclusive information*” \$\$\$

- Inventory on the Internet
- Too costly to advertise in a newspaper
- No control – there is a way!
- See Testimonials
- Commercial Real Estate
- Residential Real Estate
- Follow RECO guidelines

# Business @ the Speed of Thought

[Link](#)

# Opportunities to Build Your Inventory on the Internet – 7 billion people!

- FSBOs
- Open listings
- Exclusive (non-MLS) listings
- Builders
- Expired
- Coming for sale
- Want to sell quietly

ICIWorld has the platform proven over 20 years

# Can you master 3 simple questions

1. Will you pay me a commission **if I bring a buyer?** Then negotiate the commission.
2. Will you give me a 48 hr. exclusive listing to show the property **once I have a buyer?**
3. May I advertise your property. I am going to do it ***without disclosing the address.***

# RECO

...A registrant shall not include anything in an advertisement that could reasonably be used to **identify** specific real estate unless the owner of the real estate has ***consented in writing.***

# When someone calls you

- When someone calls you they will ask for the address.
- You make a statement “**in this particular case we have to put an agreement in place first,** but if it is okay with you I can show it to you on Sat, come to my office and I will make arrangements for you to see it.”
- On Fri. you go get a 48 hr exclusive listing agreement to show it.

# Coming For Sale

- When someone calls you they will ask for the address.
- You make a statement “**in this particular case we have to put an agreement in place first,** but if it is okay with I will put you on a list. When I get the agreement signed, I will call you back and if you are still looking, you can be one of the first people through the property. How does that sound?”

# Advertise Information

"Mississauga Restaurant \$350K, Making money"

"Toronto Triplex, \$750,000 Positive cash flow,  
great tenants."

"Oakville 4 BR 2 Storey, \$1M, under market, not  
on MLS"

Most owners will give you permission to  
advertise in this way... as long as the  
address/location of the property ***cannot be  
gleaned from the ad.***
